GRAIN AND PRODUCE MARKET

Northwestern Spring Wheat Crop in Danger of Rust.

CORN SHORTS ARE VERY UNEASY

Because Rain is Needed in Many Sec. tions of South and Temperatures Are Drying Up Some of the Plants Starten Late.

OMAHA. June 17, 1913.

It is more than likely that the condition of the spring wheat crop in the northwest will prove the price maker for some time to come. One of the best crop experts in the land and who is now in the northwestern belt says that conditions there are just right for the development of black rust. That unless the temperatures lower and the rains cease there is possibility that this dreadful plant disease will make its appearance in the wheat plant. That it has aiready been seen in scattered localities. by that farmers while fearful of its general appearance, like that of 1963, are in hopes that it will be sidetracked by more favorable conditions. One plees of news that was well received in the Chicago wheat pit yesterday was that wheat would be in readiness for the harvester as far north as Minheapolis in about two weeks, or during the first week in August. OMAHA, June 17, 1913.

as far north as Minheapous in about two weeks, or during the first week in August.

While the purchases of wheat from the country by Chicago people were believed to have totaled 750,000 bushes yesterday, the idea among the trade was that these purchases were much smaller than that amount.

wheat was unchanged to %c Uneasiness was shown in the ranks of the shorts in corn again yesterday and prices were better. Rain is needed in

LEGAL NOTICES.

NOTICE is hereby given that sealed proposals will be received by the Board of Directors of the Faymers' Trrigation District at their office in the City of Scottsbluff, Neb., for the purchase of \$76,500 of the 6 per cent serial bonds of the district until 15 of clock in on the 5th day of August, 1913. Said bonds are issued by authority of an act of the legislature of the state of Nebraska approved March 25, 1256, session laws 1895, Chapter 19, and the amendments thereto, and pursuant to a vote of a majority of the qualified electors of said district. The board expressly reserves the right to reject any and all bids and will in no event sell any of said bonds for less than ninety-five (95) per cent of the face value thereof.

By order of the Board of Directora.

HEYWARD L. LEAVITT.

CHICAGO GRAIN AND PROVISIONS Pentures of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, July 17.—Huge receipts at primary points today acted as an offset for buillish sentiment in the wheat pic. Accordingly the market closed steady at a shade to be under last night. Corn finished with a gain of 1-18c to 54%c, oats up 16%c and provisions showing an advance of 106%c.

Arrivals of wheat as reported from the chief terminal cities amounted to the extraordinary total of 1,465,000 bushels. The highest previous aggregate for twenty-

traordinary total of 1,465,000 bushels. The highest previous aggregate for twenty-four hours was 1,260,100 bushels and was the result of unusually active shipping, stimulated by fear of reciprocity with Canada. Today's receipts, which contrasted with \$2,000 bushels a year ago, were especially liberal in the northwest, where the crop outlook was reported good and the chance of rust damage was said to be fading away. Seaboard clearances of wheat and flour were small, equalling \$79,000 bushels. of wheat and flour were small, equalling 279,000 bushels.

Considerable strength developed in the wheat market early in the session, owing to Canadian advices of unseasonable cold and because of improved flour husiness at Mineapolis and of export buying at Kansas City. All of the gains, however, gradually disappeared, and before the close there was a net decline, influenced in part by the material subsidence of the bulge in coarse grain.

in part by the material subsidence of the bulge in coarse grain.

Holders of corn indused in heavy realizing sales. Complaints of crop losses southwest had carried the market sharply higher, but slightly cooler weather in Kansas and Nebraska made owners cautious, notwithstanding there are no predictions of rains.

The oats market was governed almost wholly by the action of corn, reacting noticeably after a decided advance.

There was a broad speculative trade in provisions, with excellent each demand. An advance in the price of hogs kept the market on the upgrade.

NEW YORK STOCK MARKET

Net Results of Trading During Day's Session Small.

FIRST FIGURES ARE LOWER

Recovery Soon Effected and Later Movement is Irregular-Failing Off in Demand is

NEW YORK, July 17.—The net result of today's trading in stocks, so far as changes in the level of prices were concerned, was small. It was apparent from the outset that the market would not hold to the pace set yesterday, when quotations rose sharply in all quarters. First figures were lower. A recovery was soon effected, but the later movement was irregular and the close found many of the important stocks showing small losses.

soon streeted, but the later movement was irregular and the close found many of the important stocks showing small losses.

Stocks were well taken at concessions, but there was a failing off in the demand and buyors were unwilling to follow the market upward. Fluctuations apparently bore little relations to developments at the day, which had but a slight bearing on stock market values. Unexpected complications in the negotiations between eastern railroads and their employes may have exercised some sentimental influence. More important was the reaction in London and the decline in American stocks there. This was followed by London selling here, principally of Canadian Pacific, Steel and Union Pacific.

Berlin sold Canadian Pacific here direct. The petroleum shares were exceptionally weak. California Petroleum sold down 5 points to 2% and the preferred dropped 6 points to \$2. Maxican Petroleum at 5% showed a loss of 4c. One explanation given of the weakness of these shares was that the closing out of loans by a local bank had necessitated selling of petroleum stocks which had been put up as collaters. With the approach of the crop-moving season with its heavy demand for money, it was pointed out, banks will be compelled to draw tighter lines in regard to extending credit on stock exchange collaters.

Bonds were steady. Total sales, par value, 31,237,600. United States bonds were unchanged on call.

Number of sales and leading quotations on stocks were:

Totals 1,558 10,255 4,642 CATTLES—Cattle receipts were very rmall this morning as compared with previous days this week. The total for the week foots up 10,568, the largest since three weeks ago, when 18,518 head were reported in. As compared with a year ago there is a falling off of about 500 head. head.

The market on heef steers was in very satisfactory condition. The few cattle offered met with quite ready sate and practically everything in sight was cleaned up in good season. While there was nothing very choice or well finished in the yards, there were cattle here good enough to bring \$8.00.

Fat cows and hefters were generally steady with yesterday, but gransers were uneven and the feeling generally a little lower. This was especially the case with stockers and feeder dows and hefters, which have been commanding very sign prices.

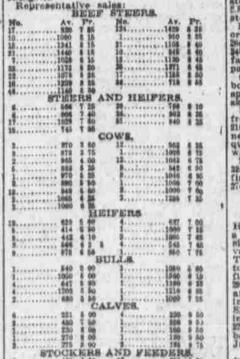

Stockers and feeders were slow sale and

Prices.
Stockers and feeders were slow sale and the feeling very weak. The supply of fresh cattle was small, but there were plenty carried over from yesterday in the hands of speculators. It is safe to quote the general nurket on stockers and feeders as 25c lower than Monday, and possibly as much as 60c lower in some cases.

cases.
Quotations on cattle: Good to choice theef ateers, \$7.3068.75; fair to good beef ateers, \$7.3068.25; common to fair beef ateers, \$7.3068.25; common to fair beef ateers, \$7.3068.0; good to choice ones, \$6.0097.40; fair to good grades, \$2.3508.00; common to fair grades, \$8.5065.35; good to choice atokers and feeders, \$7.3547.75; fair to good stockers and feeders, \$7.3547.75; fair to good stockers and feeders, \$7.5547.75; fair to good stockers and feeders, \$8.7547.75; common to fair stockers and feeders, \$8.5568.55; stock cows and heifers, \$5.0088.66; veal calves, \$7.0089.75; bulla, stags, etc., \$8.0087.40.

Representative sales:

HOGS—The market took a new turn this morning. With a rather liberal run in sight, both shipper and packer buyers started out to plek up the good to choice grades of stuff and during the early rounds, the commonse kinds were more or less neglected. Prices paid early for the better grades of hogs were generally bigibe and in some cases as much as 10c higher. Some choice lights sold as high as 18.00. After the good end of the offerings had been picked there was a luli in the movement and trade, which had been fairly active, became very dull and draggy. From this time on the market was slow, and the prices paid for the commoner grades looked to be anywhere from steady to possibly a nickel higher in spots. As is indicated by the sales the market was very uneven, and values depended almost entirely on the quality of the hogs. Taking the market as a whole, prices are anywhere from steady to biglioc higher and the average of all the sales is fully a nickel higher. Built of the sales was quitted at \$7.595.55. There was quite a sprinking on up to \$2.00 and the rougher kinds sold as low as \$8.50, but the long end of the sales will hind at the spread named.

As a general thing, the market for the week is logical higher. Slow, draggy markets have been the rule all week, and while the trend of prices has been upward and the feeling firm, buyers and sellers have had difficulty in agreeing on values. Cholce lights reached the \$2.00 mark today for the first time since in April.

Receipts included about 187 cars, or

mark today for the first time since in April.

Receipts included about 187 cars, or 18,300 head, the heaviest run of the week to date. Total for the four days is 32,500 being slightly smaller than last week and more than 4,000 short of the receipts on

olferings on sale moved at \$5.00, top for the day, as against \$8.35 on the day before.

There were no aged sheep of consequence on sale, so values inderwent no quotable change from yesterday.

Today's receipts were 20 car or 5,000 head, being all lambs. Last squraday the receipts amounted to only some 2,224 head and on the same day one year ago 7,076 head were yarded.

Quotations on sheep and lambs: Lambs, good to choice, \$7.5585 is inambs, fair to good, \$7.509,7.75 lambs, feeders, \$5.5595,35; yearlings, range, \$5.0095,00; yearlings, range, \$4.2594 75; wethers, range, \$4.2594 75; wethers, range, \$4.2594 75; wethers, range, \$4.2594 75; wethers, feeders, \$2.5694,75; ewes, range, \$4.2594 75; wethers, feeders, \$2.5694,75; ewes, range, \$4.2594 75; ewes, feeders, \$2.5694,56; ewes, feeders, \$2.5694,56; ewes, find \$6.00 for the feeders, \$6.2594,56; ewes, feeders, \$2.5694,56; ewes, range, \$4.2594 75; ewes, feeders, \$2.5694,56; ewes, f

WANT DIVORCE FOR NOTHING

Man and Wife Have Agreed to Live Far Apart.

WOULD AVOID ALL EXPENSE

Put the Proposition Squarely to the Clerk in the Office of the District Clerk, Who Takes it Under Advisement.

Seeking a divorce that would cost their oo fee, a couple came into the office of the clerk of the district court and put their proposition to M. G. MacLeon cashier in the office. The two came in arm-in-arm, and from all that MacLeod could see there was no great enmity between them. They were about 40 years

"We want to get a divorce," the mar confided in MacLeod. "We can't hardly afford to pay for it, and I think you can just as well fix us up for nothing." MacLeod wrinkled his forehead, dropped

his chin on his shirt front and squinted over his glasses at the man. Then he looked at the woman.

the proposed divorce. "The fact is," the man continued, "I can't support her and her two children the way they should be supported. I am a peddler and I don't make very much money. If we can get a divorce, she can go to New York City, where she can soon marry another man that can make

a better living.' Again the smiling woman nodded her

consent. "She is a fine woman, all right," con tinued the peddler, "and a woman that any man could be proud to have, but I can't support her the way I should and so we want a divorce. And we are both don't need no lawyer nor nothing like that. If you will only write us out a divorce right now, we will be all right." MacLeod was still standing. He was touched by the situation. He saw the philosophy of the argument. The woman

was smiling consent to the whole scheme. "What is the use of lawyers and judges. anyway, in cases like this?" thought Mac-Leod as he scratched his scalp a little. Then he looked both of them straight in the eyes.

"Now if you really want a divorce as bad as you seem to and are so well satisfield with the scheme. I must see what I can do for you," he said. "Come in again this afternoon or tomorrow. In the meantime I will take the matter up with the county attorney."

Assessor Says it is Hard to Find the Owners of Autos

Under the present law it is extremely hard for the county assessor to tabulats all the automobiles in the county when it comes to making up the rolls of the taxable property. The new report, which is not yet complete, shows a large increase in machines over last year, but County Assessor Counsman complains of the difficulty of locating all the machines.

"If we had a law to compel auto own-

ers to renew their license at once when they run out, and to change the registration at once when a car is sold to another party, we could handle the matter of assessing automobiles much better,"

Range Cattle Are Starting to This Market Earlier

A fairly heavy run of range cattle has set in toward the Omaha market, the earlier than usual, due to the excellent feed on the western Nebraska and cast-

ern Wyoming prairies this season.

The Burlington and Northwestern have fed steers, and within two weeks shipments are expected to be heavy, as mora than 500,000 head of Texans were shipped to the Nebraska and Wyoming ranges last spring. The cattle that are coming in prime condition. When they were shipped to the west last spring they were in poor flosh, but they seem to have fattened on the grasses much more rapidly than the natives.

New Hotel May Need More Finances to Carry Out Plans

Gurdon W. Wattles returned from Lake Okoboji last night. A meeting of di-rectors of the Hotel Fontenelle will be called by him for Saturday or Monday, on hotel construction should be made agon and the present revised specifica-tions will be used. They believe addi-tional financing will be necessary and that it can be secured. The contractors. while not having entered blds on full plans and specifications, have materially lessened their first estimates of cost The directors think still lower figures will be obtained.

Y. M. C. A. Cafe Joins the Coatless List

The "coat" order at the Young Men's Christian association cafe has been changed. The recent hot spell has been too much for even the directors, and at a meeting of the cafe committee it was decided that hereafter during the hot weather men may eat in the main cafe in their shirt sleeves.
